Registration Check UAT - Bug #12069

BE - QC1227 - Registration Check: Validation checking for allow_cancel (when there is no input of revision #)

20 September 2021 03:02 PM - Jimmy Phang

Status:	Resolved	**Start date:**	20 September 2021
Priority:	Normal	**Due date:**	
Assignee:	Jimmy Phang	**% Done:**	100%
Category:		**Estimated time:**	0.00 hour
Target version:		**Spent time:**	0.00 hour

Description

Data - Inputter – 003 – pending revision – NO Revision Ticket Number

Registration No – BVREG00000000000087
Email: achmad.pirnando@ocbcnisp.com
Mobile: 08111631228
Acct Name: NAMA1 10810000157
KTP: 0000921928091

Issue:
7. Button Enable Edit and Cancel Registration Only display button CANCEL REGISTRATION cos user did not input Verification Code. --- BE --- is fixing to check on revision number when that is no input of revision# for the return of allow_Cancel = Y, in order to for FE to display Cancel button only.

Validation checking for allow_cancel needs to be refined in order for FE to determine the display Cancel button when there is no input of Revision Number.

History

#1 - 20 September 2021 05:17 PM - Jimmy Phang

- Subject changed from BE - Registration Check: Validation checking for allow_cancel (when there is no input of revision #) to BE - QC1227 - Registration Check: Validation checking for allow_cancel (when there is no input of revision #)

Subject title change.

#2 - 21 October 2021 08:19 PM - hemanth hemanth

- Status changed from New to Resolved

- Assignee changed from hemanth hemanth to Jimmy Phang

- % Done changed from 0 to 100

Fixed. please test
