Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description Our approach steps in order to cater the App Store Review requirement as below: <ol style="list-style-type: none">1. Inform user by prompt note that data deletion can be done via bank branch2. Allow user to perform App Data Clearing (Wipe-off all the application data stored in Keychain) You can start the development and code it under BIBD version 3.9.6. The 1st and 2nd step should be develop in separate branch/trunk code and during the next app submission we will package with the 1st approach first. If the 1st approach rejected by App Store Review, then we will merge the 2nd step to the app and resubmit again.
