#### Description

The button "Send Code" at the "Tell Us About Yourself" screen is very difficult to press.  
The same when the verification code had been entered, the "Send Code" button is also difficult to press.

It seems to only work when I try to press on the left side of the button.

The buttons for the initial screens and those belonging to CTOS do not have this problem.

Can please check. Thanks

mun fung: Enhancement [#13003](#) Some button on the screens very difficult to press to move to next step

Root Cause: The loading spinner/indicator did not appear after user click send code button to perform certain transaction which might make user think that the button is not working.

Solution: Solve the problem where loading spinner/indicator does not appear after user click "Send Code" button.
