Phase:	R1	Branch Code:	showroom-proj-base-i5
Description			
add selection at login page (Could refer other website where to put) EN CN			
Use translate to change the language. Currently default is en (English), it will load from en.json, now need to add the zh-CN (Mandarin) mean need to create zh-CN.json			
Before create the json, have to make sure all the message is from en.json, mean from the code point of view is like this {'example' translate}}. If not have to put it inside the en.json
