iOS - mTLS URL changes

25 August 2022 06:37 PM - Jimmy Phang

Status:	Resolved	**Start date:**	25 August 2022
Priority:	Normal	**Due date:**	
Assignee:	Jimmy Phang	**% Done:**	100%
Category:		**Estimated time:**	0.00 hour
Target version:		**Spent time:**	0.10 hour

Description

To replace url - https://velocitymobile.ocbcnisp.com for mTLS. while you are testing the connectivity and if there is no client cert challenge being asked by the server, please igone. Ocbc is currently letting it bypass for now, and they will turn it back off later.

So, what we can do is to make sure as below in our source code today.

- Resubmit source code on 2022.08.19
- remain the same mTLS setting as of 2022.08.19
- pls check the connectivity
- Pls also help to launch app to see if it is able to.
