Retested in ver 13.9.6

- Issue:
- Confirm button be able to click multiple times
 - Double deduction on a single transfer display in transaction history
 - Transaction got sent twice into BE

Expected:
For any second or next request for the same transaction received, Mobile Backend will throw a 'Service Unavailable' error

Result: As expected
- Mobile BE catch multiple requests from a single transaction, the first request is approved, and the second request will be rejected and throw 'Service Unavailable' error.

Fixes applied to:
- Transfer Own
- RTGS/ACH
- TT
