

Production IR - Bug #17143

[AP 22043] BusinessDate = 0

09 August 2023 09:10 AM - Nor Khairun Aqila Jesmen

Status:	PRODUCTION	Start date:	09 August 2023
Priority:	Normal	Due date:	
Assignee:	Feerman Yusoff	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description			
Issue: DB response to RIB 0 value causing JMS ques high thus impacting RIB performance			
Solution:			
1) Instead of the application keep requesting for the Business date to DB, we will point it into a file.			
2) The file will get the latest Business date during run batch (as per BAU) and store inside the file.			
3) The advantage using this method is reducing the calling to DB and less development effort.			
4) This method also reduces the burden on DB, as for every transaction RIB would require to retrieve Business date from DB.			
5) In term of security, it applies the same security as properties file currently in RIB and MIB.			
6) Date in database still maintain as per BAU (request by BIBD)			
Testing scope:			
1. Regression testing (ensure date retrieve from properties)			
2. Before batch, after batch, BCOT, ACOT, Business Day, No Business Day, weekend, PH			
3. MIB, RIB, IBMS, BNX, IVR?			

History

#1 - 01 July 2024 03:01 PM - Nur Azza Syazwany Azizol

- Status changed from New to PRODUCTION
- Assignee changed from Nur Azza Syazwany Azizol to Feerman Yusoff

Deployed to Production on 29/06/2024
