- % Done changed from 0 to 50

Only org profile and user role pages implemented this fix, as a proof of concept. If this feature works as intended, I will apply it to the rest of the pages.

- re-populate form on language change (#19075, organisation profile + user role page only)
- fix org profile view cancel behaviour (#19106)

Issue has been fixed.

Already test for this module when modify and change the language, the form will refresh.

business-constitution
country
mleb-function
mleb-system
organization-profile
user-category
user-profile

Click User Profile -> click Search button -> click data in table -> click modify -> modify the form -> click change language button -> the record had been refresh.
