Target version:			**Spent time:**	0.00 hour

Description

R&D create as library for folder share, allow to use in another child(e.g. cc-auth, cc-topnavbar) to use instead of copy the source code over

---

History

#1 - 26 January 2024 10:58 AM - chok yee fan

- Subject changed from FE - React - create share folder as library to share across the project to FE - React - create share folder as library to share across the project for cccore-shared.js

- Assignee changed from chok yee fan to Amirul Umar Pandai

if all module able to share this cccore-shared.js then is fine. The class name remain as cccore-shared.js

if have problem, need create another share js like ccauth-shared.js, to share cross the project, except cccore.
- name the class name as ccore-prop-shared.js

As discussed in previous meeting, cccore-shared will be library that dev needs to install from local mleb-core folder. After pulling latest code, dev needs to edit package.json value for each microfrontend to point to /mleb-core/cccore_shared folder, and then npm/yarn install afterwards

---

Change cccore-shared git repo link to filepath

https://dev.silverlakemobility.com/gitlab/mleb-solution-domain/smesd100/mleb-iam/-/commit/b821352b1e94fd6a26e6d394fecac0174f4783f0

-Already pull the latest code for cc_iam and cc_code then npm install. the code run smoothly.
-Check the package.json
