Scenario :
Click mleb function > click search -> click on table title MLEB System -> Not working
Click mleb function > click search -> click on table title Function Name -> Got the error as the screenshot
Issue :

Got error when to add new data

Expected :

should both data table working

#3 - 02 February 2024 11:53 AM - Hazimi Muhammad

Issue :

Click mleb function > click search -> click on table title MLEB System -> Not working
Click mleb function > click search -> click on table title Function Name -> Got the error as the screenshot

Expected :

should both data table working

MLEB System Not working - accessorKey was not provided
Function Name error - accessorFn was used instead of accessorKey

Fix error in MLEB Function search page + remove React.useMemo from table pages
<https://dev.silverlakemobility.com/gitlab/mleb-solution-domain/smesd100/mleb-iam/-/commit/5e19cc023ded5497abb1164f48cdcbc79b381461>

Check for MLEB Function search MLEB system and Function Name

Now working perfectly

#6 - 05 February 2024 03:26 PM - chok yee fan

- Status changed from Resolved to Closed

tested few modules and working fine
