**Description**

Issue

Go to BusinessConstitutionAction.tsx and at line 22 got
I={ABILITY_CONSTANTS.MODIFY_COUNTRY}
a={ABILITY_CONSTANTS.MODIFY_COUNTRY}

Expected:
Should only have I "I={ABILITY_CONSTANTS.MODIFY_COUNTRY}"

**History**

**#1 - 01 March 2024 04:53 PM - Amirul Umar Pandai**

*- Status changed from New to Resolved*

*- Assignee changed from Amirul Umar Pandai to Hazimi Muhammad*

You can test by modifying the funcList in App.tsx, or the Can component parameter in *Action.tsx file

e.g. from

<Can I={ABILITY_CONSTANTS.MODIFY_COUNTRY}>

to

<Can I={"TEST"}>

Check if Button is hidden if "I" parameter is not inside funcList

Change CASL Can component to use only 1 parameter
