Description

Issue :

Go to User Role in the menu -> click search button -> click data in the table -> click modify button -> change the value -> click save button -> the data in the table has been add new one.

Expected :

Go to User Role in the menu -> click search button -> click data in the table -> click modify button -> change the value -> click save button -> the data in the table should been modified.

History

#1 - 12 March 2024 03:33 PM - Zaid Haritsah

- Status changed from New to Resolved

- % Done changed from 0 to 100

Please change the modify function for RoleName field to Read-Only. RoleName is the PK for userRole table and should not be updateable.
