

VELO Production Issue - Bug #22301

[External Audit Findings][iOS] No Jailbreak Detection

29 July 2025 10:05 AM - yap chekying

Status:	Assigned	Start date:	29 July 2025
Priority:	Low	Due date:	
Assignee:	yap chekying	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description			
Issue: Jailbreaking is the process of gaining administrative or privileged access to the iOS OS. Without jailbreak detection, attackers may access sensitive information from the app running on the device. Recommendation from pentester: Developers must detect whether the application is running on a jailbroken device. Please refer to attached excel for details.			

History

- #1 - 29 July 2025 10:24 AM - He Xi Yeo
- File 522583256_743120614740940_2149297946710618408_n.jpg added
 - Status changed from New to Assigned
 - Assignee changed from He Xi Yeo to yap chekying
 - % Done changed from 0 to 100

Added more rigid jailbreak detection.
