Using gulp or any others way manage to build as war file. The way must be able to call from Jenkins			

History

#1 - 20 April 2020 02:11 PM - Tan Ping TP

- Status changed from New to Resolved
- Assignee set to Tan Ping TP
- % Done changed from 0 to 70

Able to build a simple angular project inside war file and get deployed on my own machine in tomcat. However still cannot deployed on jboss maybe due to security checking.

#2 - 20 April 2020 02:12 PM - Tan Ping TP

- Status changed from Resolved to In Progress

#3 - 27 April 2020 10:38 AM - chok yee fan

Need to write in README how to use to compile as war.
